

## **LOADING INSTRUCTIONS**

Set up system and switch on as described in your instruction manual. Insert disc and type: RUN "DISC" and press ENTER. The program will now load and run. Amsoft JY1 Joystick compatible.

DO NOT SWITCH SYSTEM ON OR OFF WITH DISC INSERTED INTO DISC DRIVE OR DAMAGE TO DISC WILL RESULT.

Now you can play a truly realistic game of lawn tennis on your CPC464 which fully adheres to the Lawn Tennis Association rules.

Centre Court allows you to challenge a friend, play against the computer or sit back and watch Roland v Arnold in an enthralling match, demonstrating the capabilities of this game. Inevitably, to start with, the computer will beat you but we promise with practice you will improve.

### **Service**

Pressing the fire button once (or the equivalent keys on the keypad) will throw the ball into the air and pressing it the second time will strike the ball. As in the actual game, the timing of hitting the ball after throwing it in the air is directly relative to how high and how far the shot will go.

### **Rallies**

During a rally, your position relative to the ball when you strike it, will control the strength and direction of your shot. Remember, practice makes champions!

## Controls

If you play against the computer your keys are:

UP = 1

DOWN = 3

LEFT = 4

RIGHT = 6

SWING RACKET = 8

If two play then player 1 uses the same keys as above and player 2 uses:

UP = Z

DOWN = C

LEFT = A

RIGHT = D

SWING RACKET = W

or Amsoft Joystick JY1
